

IT-005: Device and Access Policy

Kestrel Works | Department: IT | Version: 5.0 | Effective: 2026-03-01 | Owner: IT Service Desk
Fictional document created for a software demo. Not a real policy.

1. Laptops

Applies to: Employees, Contractors

Who	Device	Refresh cycle	Admin rights
Employees, engineering	Performance laptop, 32 GB RAM	3 years	On request, reviewed every 90 days
Employees, other teams	Standard laptop, 16 GB RAM	4 years	No
Contractors	Loaner standard laptop, 16 GB RAM	Returned at end of engagement	No

Contractors may not use personal devices to access company systems.

2. VPN and remote access

Applies to: Employees, Contractors

Only VPN client 3.0 or later is supported. VPN access is suspended after 60 days of inactivity. Reactivation needs manager approval and an IT service desk ticket.

Who	VPN access	Session limit
Employees	Full internal network	12 hours
Contractors	Project systems named in the statement of work only	8 hours

3. Passwords and account lockout

Applies to: Employees, Contractors

Passwords expire every 90 days. An account locks after 5 failed sign-in attempts. Employees can unlock their own account in the Self Service app. Contractor accounts are unlocked only by the IT service desk, after confirmation from the engagement manager.

4. Software requests

Applies to: Employees

Employees may request licensed software through the Self Service app. Requests costing up to INR 20,000 per year need line-manager approval; above that, department-head approval.
